Content of Online-Phase:

Students will be divided into groups of 4-5 students and will get a topic from the BIP. They have to work on this topic together with the related professor. At the end the students have to send a report to the corresponding professor. The mark of this final project together with the marks of the exams during the presence phase results in the total mark.

This course corresponds to 5 ECTS credits, which are included in the certificate together with the final mark. Further I subscribe all ERASMUS+ students for my lecture “High-pressure Intensive Course” and so they will get also a certificate of this lecture at the end of ESS-HPT 2024.
